

# Vinyl-Coated Drip Edge

## Product Data Sheet

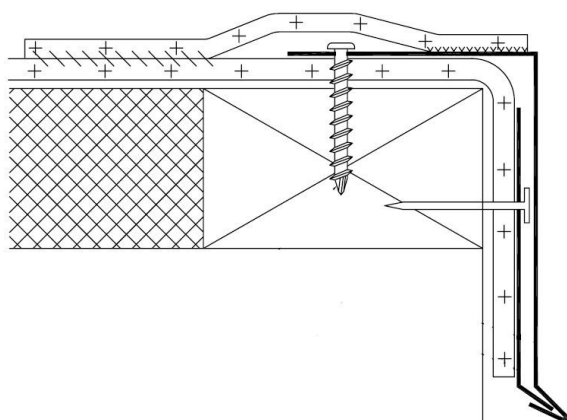

### Product Description

The Vinyl-Coated Drip Edge provides maximum water flow from roof decks while providing an architectural, visually-attractive termination.

### Features

- Available in 2 to 8-inch face size and 10-foot lengths.
- Fabricated from vinyl-coated metal with an attached 6-inch PVC membrane skirt.
- Profiles can be custom-fabricated to meet most specifications.
- Can be fabricated to accommodate various roof pitches and mansards.
- Available in several color shades and can be painted with acrylic latex paint to match building designs.
- 4" face and larger require a cleat.

### Installation

1. A wood nailer is required if 1-inch or greater of insulation is used. The wood nailer should be attached in accordance with ANSI/SPRI ES-1.
2. Install in accordance with EXCEPTIONAL® Metals' Detail Drawing 3120.
3. Any deviation from the requirements set forth in detail drawings must be pre-approved, in writing, by the EXCEPTIONAL® Metals' Technical Department.

Material	Gauge	Finish
Galvanized	24-gauge	PVC
Stainless Steel	24-gauge	PVC
Aluminum	.040	PVC
