

Arched Vinyl-Coated Drip Edge

Description:

The Arched Vinyl-Coated Drip Edge provides a smooth finish that is an aesthetically-pleasing alternative to traditional piecing. Vinyl-coated roof flange enables welding a separate skirt to both the flange and the installed roof membrane to provide a watertight seal.

- Made in 5' to 10' lengths depending on building's arch specifications.
- Edges are pre-notched for overlapped joints.
- Profiles can be custom-fabricated to meet most specifications.
- Hemmed drip kick to receive splice cleats.

Energy Efficiency:

LEED® and ENERGY STAR® compliant.

Installation:

1. A wood nailer is required if 1" or greater of insulation is used.
2. This nailer should be attached to the wall in accordance with ANSI/SPRI ES-1 3.9.
3. Install in accordance with EXCEPTIONAL® Metals Details #6010 and #6040.
4. Any deviation from the requirements set forth in detail drawings must be pre-approved, in writing, by the EXCEPTIONAL Metals Technical Department.

Warranty:

EXCEPTIONAL Metals offers a finish and substrate warranty. Contact the membrane manufacturer for any additional warranty that may be offered.

Technical Services:

Product samples, detail sheets, color chips, and color chart are available for your submittal package. For assistance with questions or submittals, contact your local representative or call EXCEPTIONAL Metals.
